trifle backward and irregular. The buyers were inclined to favor the heavy kinds, and no doubt were discriminating against the light hogs. Finally the offerings were changing hands, and the early transactions were reported 5@10c lower for heavies. There was very little change in the conditions until late in the day, when there was stronger competition and some of the heavy hogs sold a trifle higher. The top price of the day was paid for late arrivals, and it was 5c higher than anything sold yesterday. The closing market for light hogs, and, in fact, all kinds averaging less than 210 lbs, did not show any improvement over the opening. The extreme range in prices was from \$5.85 to \$6.40, and the bulk of the supply sold at \$5.9066.25. Quota-Good to choice medium to heavy\$6.10@6.4 Mixed and heavy packing...... The receipts to-day were not half as large as a week ago and over 500 smaller than a year ago. There were not enough to invite competition from all buyers, but just about enough to meet the requirements of local outchers, and, with rather active competition, he supply was soon exhausted at strong to higher prices, sales of lambs in some instances being 25c above anything paid recently. The developments in the market are just about as they were outlined in reports earlier in the week, which was that the tendency was stronger for lambs, but only steady for sheep. On account of the absence of any important orders the market was quiet, and it was more or less difficult to consummate sales, but a good clearance was finally made on the basis of prices current in the initial sale of the week, at which time there was a de-cline of from \$10 to \$15 per head. The bulk of the supply of medium to good chunks and drivers sold from \$75 to \$125 per head, and there were occasional sales from \$150 to \$175.

STOCKS DORMANT, EXCEPT AS RE-GARDS MANHATTAN ISSUES.

Henviness the Rule Throughout the List-Further Drop in the Price of Silver-Foreign Exchange Easier.

NEW YORK, Nov. 26.-With few exceptions to-day's stock market was virtually a repetition of the first days of the week. There was the same irregular tone, with many issues under increased pressure. The only important development was the official announcement of the Manhattan-Interborough lease. Manhattan was again very extensively traded in, and made an early rise of 11/2 per cent., later advancing to 1571/2 and closing at 1561/3, a net gain of 21/4 points on transactions considerably in excess of one-fourth of the entire day's business. There was much liquidation of Manhattan on the old theory that a stock is a sale when the good news is out. The only stocks that opened with a show of strength were Colorado Fuel, which continues to be the center of a fierce controversy, and Rock Island preferred, which, after a brief period of heaviness, advanced 1% per cent. and closed with a net gain of 1 point. The international list was generally lower, and the material decline in Reading was ascribed to disappointment over the outcome of the more recent coal settlement negotiations. Early dealings also reflected much pressure against Union Pacific, Southern Pacific, St. Paul and Baltimore & Ohio, Wheeling & Lake Erie fours...... 92 while the industrials were inactive, with pronounced heaviness in the United States

As on the previous day the move in Man-

hattan brought slight improvement elsewhere in the list, but the rally barely covered initial losses, save in St. Paul and Reading. The market became duller and more irregular, with operations altogether professional. Colorado Fuel, after a further gain of a point, reacted 11/2 and closed unchanged. Amalgamated Copper seemed to have some support and Sugar was about steady. There was practically no news to except in the railroad group, where some none. The market was steady. There was a unsatisfactory traffic returns were reportfair demand from local sources for good butcher | ed. On the other hand, certain other standard railway issues showed good increases. Several sales of Manhattan in 5,0000 share 5@6 per cent. Sterling exchange steady; blocks came out before noon and scores of 1,000 share lots were traded in. Manhattan's price crossed Pennsylvania for the days; posted rates, \$4.84½ and \$4.88; comfirst time in some years. St. Paul, South- mercial bills, 482.75@483.25. Clearings, \$272,first time in some years. St. Paul, South-ern Pacific, Union Pacific and Atchison were bid up fractionally at times, but it was observed that these stocks sold off at the first exhibition of weakness elsewhere. As the day wore on the professional element showed less inclination to make commitments over the holiday. Commission buying was nominal throughout, and much of that was Western liquidation of the Steel stocks. Little change in these conditions resulted from the Manhattan-Interborough announcement. The weakness of Texas & Pacific was supposed to result from the idea that that road might be most affected by any aggressive operations of the anti-Gould interests. The tone of the market at the close was weak. Trading for London account amounted to about 15,000 shares, evenly divided and of an arbitrage character. Sterling exchange relaxed slightly, demand sterling being quoted at 487.20 to 487.25. To-day's further decline in the price of silver fixed another new record in the history of the world. It was much commented on in banking circles, causing considerable uneasiness among exporters and

merchants of this city doing business with China and other points in the far East. To bankers, however, the most significant news of the day was the cable advices to the effect that the Siamese government had instructed the mint to cease immediately the free coinage of silver. Coincident also with this development was the decline today of silver at Bombay to a level several points below London. An interesting feature of the drop in silver was the advantage reaped by laundrymen and small merchants of the Mott-street district, through being able to purchase silver bills at so low a rate. They flocked down town to-day, cash in hand, sending heavy remittances to friends at home. Most of them were surprised at the large sums allowed for the amount turned in. Some of the active bonds declined to-day

but there were also issues which advanced slightly. Total sales, par value, \$2,085,000. United States bonds were all unchanged on Following are the day's share sales and the recorded prices changes:
